

WSEF FORUM & EUTRADE SUMMIT 2027

The 8th World Sustainable Energy Forum
& 1st EUTRADE Global Business Summit

SMART CITY · SMART TRADE · SMART SECURITY

24-25 March 2027
Eurostars Grand Hotel Wien · Austria

Organised by Reviesta Consulting Group

Vienna connects knowledge and opportunity

Two days of sustainable cooperation

The Forum brings together urban planning, academia, business, investors and diplomacy. It focuses on sustainable cities, international trade and the security of interconnected systems.

Target: 500 attendances in total

250 per day × 2 days

Conference · Exhibition · B2B meetings

Three pillars. One shared vision.

SMART CITY

Creates sustainable infrastructure.

Energy, mobility, buildings, water and intelligent urban planning.

SMART TRADE

Creates the economic foundation.

Enterprise, investment, financing and international partnerships.

SMART SECURITY

Protects the entire system.

People, data, essential supplies, the economy and critical infrastructure.

A city can be smart and a global trade hub - without security, neither can succeed sustainably.

Smart City: planning for quality of life

Energy & buildings

Renewable energy and efficient supply

Energy-efficient buildings and districts

Carbon emission reduction

Mobility & infrastructure

Electric mobility and charging infrastructure

Public transport and intelligent traffic planning

Sustainable urban mobility

Digital & resilient cities

Data-driven city management and AI

Water and waste management

Environmental quality and urban resilience

Key question: How can cities improve quality of life while reducing resource use and environmental impacts?

Smart Trade: turning solutions into projects

Investment & financing

Financing models for urban development

Public-private partnerships

Energy and mobility investment

Markets & technologies

Technology transfer and market access

Cross-border and digital trade

International supply chains

Partners & implementation

Business matchmaking

Entrepreneurial innovation

Cooperation between cities, companies and investors

Key question: How can a city create economic value and finance its transformation?

Smart Security: protecting trust

Digital security

Cybersecurity and protection of city data

Secure digital infrastructure

Artificial intelligence in security

Secure essential services

Energy, water and food security

Healthcare provision

Critical infrastructure protection

Resilience & stability

Financial and economic security

Crisis management and civil protection

Transport, defence and nuclear security

Key question: How do we protect people, businesses, infrastructure and future generations?

From expert dialogue to cooperation

Sharing knowledge

Keynotes and expert discussions

Perspectives from academia and practice

Interdisciplinary solutions

Connecting people

International networking

B2B and investor meetings

Connections between cities, businesses and institutions

Developing projects

Exhibition and company presentations

New markets and partnerships

Joint investment opportunities

The detailed agenda and session schedule will be published separately.

Speakers: knowledge, experience and perspectives

Prof. Hermann Knoflacher

TU Wien · Transport planning

Sustainable mobility, people-centred urban planning and the links between transport, energy and quality of life.

Univ.-Prof. Reinhard Haas

TU Wien · Energy economics

Renewable energy, energy markets, regulation and the economic framework for sustainable energy systems.

Dr. Amela Ajanovic

TU Wien · Energy and mobility

Electric mobility, alternative fuels and economic and environmental assessment of sustainable transport technologies.

Speaker selection based on event materials. Programme subject to change.

Speakers: knowledge, experience and perspectives

Dr. Christoph Leidl

European economic cooperation

Former President of the Austrian Federal Economic Chamber and Eurochambres. Entrepreneurship, international partnerships and market access.

Marc R. Pacheco

Former Massachusetts State Senator

Climate policy, clean energy and transatlantic cooperation. Long-standing advocacy for emissions reduction and climate legislation.

Univ.-Prof. Dr. Roland Ernest Poms

Food safety and public health

Food science, quality assurance and public health as foundations for resilient supply systems.

Speaker selection based on event materials. Programme subject to change.

Speakers: knowledge, experience and perspectives

Stefan Petters

Technology and infrastructure

Industrial innovation, technology development and scaling. International experience in industrial partnerships and infrastructure.

Dipl.-Ing. Gökhan Yıldırım

President of WSEIN and EUTRADE Business Club

Connects sustainable urban development, global business networks and practical project cooperation through Reviesta Consulting Group.

Dogad DOGOU

Sustainable development in Africa

Perspectives on sustainable development in Africa and international economic cooperation.

Speaker selection based on event materials. Programme subject to change.

EUTRADE: a global marketplace for connections

From Vienna to the world

EUTRADE Business Club connects people, companies and opportunities across countries and industries.

The Summit brings international networks together with sustainable Smart City expertise and entrepreneurial practice.

WSEIN: sustainable urban development · EUTRADE: global trade
Reviesta Consulting Group: organisation and project cooperation
